

BEADLES BASICS from **BEADLES BULLETS V1**

This document will continue to be updated and evolve with more and more evidence and proof.

Our leaders are so grossly uneducated on most of these important issues.

*Every incumbent and political candidate must know these issues inside and out to properly represent **WE THE PEOPLE**.*

Below are talking points, all based in fact, and beneath the facts available for you to verify the talking points.

Key issues right now in our Country and World are:

- Fraudulent elections
- CRT forced on our children
- Unconstitutional mandates: vaccines, masks, lockdowns, removal of our Bill Of Rights
- The coming gun grab to strip us of our 2nd amendment
- Recruiting America First Patriots to fill roles of leadership
- Lockstep monopoly of government, big tech, media, healthcare, education system, corporations etc

IF OUR VOTE DOESN'T COUNT, NEITHER WILL ANYTHING ELSE.

- We need a new election system
- A new election system could cost 25-50% less than what we already use and could be 98+% accurate.
- 2020 still has 15 million missing mail in ballots
- Without voter ID the vote can't be trusted
- Mail in ballots are banned in most countries due to fraud
- All parties must be present from when the polls open to when the votes are certified
- All precincts must be responsible for certifying their precincts votes

- All poll locations must only be staffed by residents of the county
- No outside money aside from government shall be allowed in our elections
- Our voter rolls are possibly higher than 42% incorrect or fraudulent, they must be thrown out
- We must have “Election Day” not election month
- Election day shall be a holiday
- No mail out ballots except for Military members and certified indefinitely confined citizens
- Only paper ballots day of election shall be used, carbon copy, one for poll worker, one for citizen who cast vote
- No machines to be used period
- It takes in most cases less than an hour to count and certify their precincts votes
- Voting machines can flip votes as a “feature”
- Senate hearings prove machines can be designed to rig elections
- Senate Hearings prove machines can be hacked in live time
- Voting machine companies refuse to allow the government or 3rd parties to audit the source code
- Voting machine companies refuse to answer questions or allow inspections of their “machines”
- If the public can not verify their vote was cast properly the system must be replaced
- The public can not verify their votes are cast properly by mail or by machine
- The majority of the public has no faith in our election system or our leaders protecting it

WHY REMOVE THE MACHINES?

According to top Democrat lawmakers Kamala Harris, Ron Wyden and Amy Klobuchar to name a few, they can be hacked very easily. The 3 companies that produce the voting machines won't answer lawmakers' most simple of questions.

<https://rumble.com/vh9h81-voting-machines-hacked-kamala-harris-amy-klobuchar-say-its-possible.html>

Why in the world would we outsource our most precious right to people we don't know, that aren't held accountable and the tech isn't even safe?

Nasa computer programmer 20 years ago under oath showed voting machines can steal elections undetectably. The way to tell however is through auditing the source code and checking the paper ballots.

Why can't we check the source code or check all the original ballots?

<https://www.youtube.com/watch?v=HcOFBu-Thds>

In Nevada, the machine's algorithms changed Republican voters to 63% per vote, from 100%, disenfranchising every Republican Voted in Nevada. These machines can not be trusted. It happened to Republicans this cycle but next cycle it can be used against democrats.

These machines can flip votes, one person can literally change millions of votes any way that person deems fit. These machines connect to the internet and can be accessed remotely anywhere in the world according to their own brochures!

We must have 100% control of our elections, we cannot use devices that by design can change-steal our votes. It's also a National Security issue as these machines can be accessed remotely by China and others.

In addition to these "features" please watch the hours of video showing and telling you all the additional issues we currently have using these machines. As long as we use machines, our votes can never be trusted, period.

ENSURE OUR VOTES ARE COUNTED PROPERLY.

We must have poll workers, managers, watchers, adjudicators throughout our election process that are residents of our County. Last election, workers were bused in from San Francisco, from Unions etc. They were-not residents of Washoe and should be banned from our elections for obvious reasons of prejudice etc. Washoe citizens count Washoe citizens votes period! Our voter rolls must be cleaned:

We have an abundance of illegitimate voters on our voter rolls. Our rolls according to canvasses and data scientists research show our voter rolls could have as many as 35% illegitimate voters on the rolls. The rolls must be cleaned. Beadles and team have lists of tens of thousands of illegitimate voters, how many fake votes are too many before we clean the rolls? Must we wait until all of our liberties are gone before we say we should have done something about it?

SO WHAT DO WE DO?

With free and fair elections, we would see most of this tyrannical overreach end for good.

First steps in fixing the vote, we scrap the whole system, it's failed us all! R's and D's alike!

Keys to a free and fair election are: remove all the machines, use only paper ballots, both parties keep a copy, have only County residents work the polls, have representation from each party in every step of the election, have national guard at each polling location to ensure rules are followed, each voter must show proof of ID and live in the correct precinct to vote. All votes will be counted at each precinct and reported publicly in live time to the registrar of Voters and a public website for all to verify.

In addition, we must delete ALL our voter rolls, every election, legal voters will show up to their precinct and vote in person. No more mail out ballots, no more machines! All done by hand, by County citizens. We have ONE day voting, NOT early and late voting. One day, make it a Holiday!

Beadles has a guide to show step by step how to do this in great detail. It would cost a fraction of what we pay now and be as close to perfect as we can make an election.

Every County in NV is responsible for their own elections and can choose how they hold the election. The County commission can make all of these changes, one vote and our elections could be trusted again.

**This is NOT a Republican vs Democrat thing. This is not political.
Every legal vote should count! Period.**

Regardless of what you've been told, the American people have rightfully lost faith in our election system. It simply cannot be trusted, the overwhelming evidence at a minimum casts reasonable doubt so the current system must be scrapped. We have an easy to implement and hard to cheat system that will restore confidence for all parties. It will additionally save the tax payers possibly as much as 75% of the cost and God only knows how much it will save all Americans by installing the loser in the winners seat. We must have a free and fair election or nothing counts or matters anymore.

CRT IS COMMUNIST, RACIST, AND ITS THEORIES HAVE NO BUSINESS IN OUR COUNTRY!

Everywhere CRT and Communism has been tried, it's failed, so why are we doing it?

Throughout history Communism has always failed, they'll always give some weak excuse like it only failed because they needed even more power. Hundreds of millions have died under Hitler, Stalin, Mao, Pot, Amin etc . What makes you think it will work now? Why would we ever try?

- Critical race theory divides Americans into oppressor and oppressed based on their skin color.
- We oppose racism, whether it comes from the Klan or from critical race theory
- Critical race theory teaches that individualism, rationality, and hard work are racist. That is an insult to hard-working American families of all racial backgrounds.
- Critical race theory says the solution to past discrimination is present discrimination
- Critical race theory rejects the idea of equal protection under the law
- We believe everyone has the right to equal treatment, no matter where they come from
- Critical race theory teaches children that they are defined by their race, not as individuals
- Critical race theory is not a free speech issue; it's a compelled speech issue. Public schools do not have the right to violate a child's conscience

- Critical race theory teaches children to hate each other and hate their country
- Public institutions must reflect the values of the public—not fringe racial theories that seek to divide Americans into oppressor and oppressed
- Critical race theorists have the right to express their beliefs as individuals; they do not have the right to use taxpayer money to indoctrinate children
- We must prioritize excellence, which inspires people from all racial backgrounds to achieve their potential
- The government does not have the right to force individuals to believe in race essentialism, collective guilt, or racial superiority theory
- CRT violates the U.S. Constitution, Title VI of the Civil Rights Act of 1964, and the Equal Protection Clause under the Fourteenth Amendment
- The homeschooling rate has quadrupled since 2019, and black parents are pulling their children out of schools at five times the rate.

Common arguments from school boards, government:

Critical race theory supporters have attempted to dismiss parents with three primary counterarguments: that critical race theory isn't taught in K-12 schools, that opponents can't define critical race theory, and that critical race theory is just "teaching history." Here are the responses to rebut those claims.

Counterargument: Critical race theory isn't taught in K-12 schools.

RESPONSE: Critical race theory began in the late 1980s in law schools but over the decades has become prominent in other academic disciplines and the K-12 education system. There are thousands of pages of academic literature and a number of textbooks on "critical race theory in education," instructing primary and secondary school teachers how to adopt critical race theory principles into the classroom. CRT cofounder Kimberlé recently boasted that "critical race theory originated in law schools" but was adopted by "K-12 teachers"—"and that's a good thing." In the words of Richard Delgado, another CRT cofounder, "critical race theory is in some way livelier in education right now than it is in law." While most K-12 schools do not explicitly label their materials as "critical race theory," any school that is teaching its core principles—such as whiteness, systemic racism, white privilege, and intersectionality—is, by definition, practicing critical race theory in the classroom.

Counterargument: Opponents can't define critical race theory.

RESPONSE: This is an attempt to embarrass parents who are not versed in obscure academic jargon. The solution is to have a simple definition of critical race theory at the ready: "Critical race theory teaches that the United States is a fundamentally racist nation and divides Americans into 'oppressor' and 'oppressed' based on their skin color." After giving this short definition, the best argument is to pivot toward specific examples from your school district and

explain how the divisive teachings have affected your children and family. You do not need a PhD to understand critical race theory; you simply need to show the specific harm it is doing to your local institutions. Most parents have an intuitive understanding that teaching children that they are “oppressors” or “oppressed” is morally wrong. There is no need to use academic jargon to justify this simple truth.

Counterargument: Critical race theory is just teaching history.

RESPONSE: Critical race theory is a political ideology, not a historical discipline. It argues that America is a permanently and irredeemably racist nation—and that “all white people are racist” because they benefit from “white privilege.” The ideology of critical race theory assigns collective guilt to racial groups and promotes the noxious narrative that individuals are inherently oppressive or oppressed based on their race. We support teaching a full, honest look at American history—including the evils of slavery, racism, and segregation—but within the context of America’s highest ideals and our steady progress toward realizing them. Critical race theory is an ideology of racial pessimism, which is toxic to children of all racial groups. Teaching honest history is important; teaching a left-wing political ideology is wrong.

Bottom line, why teach our kids things that hinder vs help them? Why hold them back vs propel them forward? Why not give them tools they need to be successful in school and in life, why demonize them for the sins of generations they most likely had no part in.

Did you own slaves? Did your grandparents own slaves? Not us either! Every Country in the world has had slaves, there have been more white slaves than blacks. Why aren’t we discussing that if they want to discuss slavery? Let’s stop dividing and start unifying us all based not not on the color of our skin but our character, period.

REMOVE ALL VAX-MASK MANDATES AND PASSPORTS:

Why in the world would we make something mandatory when we know it doesn't keep you from getting or transmitting the virus and we have abundant proof the harm outweighs any potential benefits.

There are several proven, effective, non harmful treatments that CURE COVID. We should be using them, not some experimental vaccine that no one has informed consent on. It's immoral and people constituting this practice of pushing this so-called vaccine should be put on trial under violation of 18 U.S. Code § 242 and many other laws.

- The vaccine does not keep you from getting or transmitting COVID. In that alone it should be stopped.
- Masks do far more harm than any good
- The COVID virus has NEVER been isolated
- The tests do not work according to even the creator
- The vaccine has not been authorized in the US under any EUA
- The vaccine cause far more harm than good in children
- The vaccine has killed more people than all vaccines combined!
- The vaccine data on VAERS shows over 20,000 murders from the vaccine
- Harvard says the VAERS data is 1% accurate meaning 2.2 million murdered!
- Doctors, hospital etc are incentivized to label everything as covid
- The vaccine manufacturers are making money hand over fist
- The vaccine has no data insert, meaning no one knows what's in it! We won't until 2076!
- There is NO informed consent
- The virus is 99.9% survivable by most and kids are almost 100%
- Natural immunity far surpasses the vaccine
- No one knows how many boosters will be required so far we see 4-6!
- Why are the vaccine makers saying it causes heart issues in children and adults and we still mandate it? Look at how many athletes have been dying from heart related issues after The vaccine.
- There have been no long term studies, no one knows the damage this will eventually cause.
- None of the 3 vaccines are FDA approved
- All are considered experimental
- None have completed the initial research trials
- None of the vaccines will complete the research for another 2-3 years
- All vaccine manufactures are exempt from liability if they kill-harm any recipient
- Violates Nuremberg Code, article 6 section 3 No government can mandate or force medical treatment Without informed consent

Bottom line, our so-called experts have failed us, time and time again it's to follow the science but really it should be to follow the money. These so called experts are profiting wildly from these protocols, lockdowns etc.

The real science and facts are being silenced across all media platforms, true experts are being silenced, these true experts have been right all along. Most every prediction the "so called" experts have had and said has been wrong. The real science is clear, masks, lockdowns, these "vaccines" don't work. Places with the highest vaccination and mandates have the most covid cases and deaths. Places with the least mandates have the least issues in health, mental issues, business closures etc etc this madness must end, we must follow the real science and facts.

WE MUST PROTECT THE 2ND AMENDMENT AGAINST ALL ATTACKS!

We know must all murders by firearms are done by criminals with illegal firearms. We know when you outlaw guns only outlaws have them. What we see is perversion of the courts, the press etc on gun laws-restrictions and media coverage, we must know our rights. We must defend the 2nd amendment at all costs to ensure our other 26. Our founders were crystal clear

on this. It has nothing to do with hunting, it has to do with our own protection, even against a tyrannical government if necessary.

- Guns don't kill people, people kill people
- Gun control really just means taking our legal guns
- Nearly all gun related homicides are done with ILLEGAL firearms
- The 2nd amendment has nothing to do with hunting, and everything to do with protecting the other 26 amendments
- Our founders were crystal clear, Americans are meant to keep and bear arms to ensure a corrupt government could not take our rights and liberties
- The founders were clear, no matter how anti gun activists try to twist the truth, there is to be no banning citizens from any type of firearm
- Felons that have done their time should have the right to firearms as well, otherwise that means prison reform is useless
- Death by gun rate .0002%
- We have a greater chance of death from car accidents and falls
- Most murders are done with weapons other than firearms
- In 1993 alone, lawful gun owners thwarted 2.5 million crimes from happening
- Dictators throughout history removed weapons from the citizens then killed hundreds of millions of the citizens
- We're told that around 43,000 people a year die by guns, 20,000 or so by murder, accident etc and 23,000 by suicide.
- Half of the deaths by firearms are suicide. In Japan with 1/3 our population they have same amount of suicide and gun bans.
- People will find a way to kill themselves, with or without a gun.
- Majority of all gun violence is done by criminals with illegal weapons
- If you outlaw guns, only outlaws have guns
- Guns are about protecting our rights, look currently at Germany and Australia then historic communist examples
- Gun bans-restrictions are unconstitutional
- Restrictions and bans are about control not safety

<https://constitution.congress.gov/constitution/amendment-2/>

These same leaders, courts, media etc are in lockstep in narrative telling us that was a different time, era, circumstances. No we have the 2nd to protect the other 26 amendments, its really that simple.

Don't believe me, well lets take a stroll through history when governments disarmed their citizens and what happened to the citizens afterwards

There's no mention of instances of restriction, for those that say felons, criminals are criminals, they're going to get a gun one way or another, we the people and even those who served their time should not be deprived of our rights.

Then there are those who say that's why we have the national guard, not true, the national guard has been nationalized its not made up of the people as a whole

Senate ruled no armed forces it's made up of the whole people.

"I ask, sir, what is the militia? It is the whole people, except for a few public officials."

— George Mason, in Debates in Virginia Convention on Ratification of the Constitution, Elliot, Vol. 3, June 16, 1788

"What country can preserve its liberties if their rulers are not warned from time to time that their people preserve the spirit of resistance. Let them take arms."

— Thomas Jefferson, letter to James Madison, December 20, 1787

Bottom line we know most crimes with firearms are committed by criminals with illegal firearms. Most crimes are stopped by legal, law abiding citizens who legally own firearms. Our 2nd amendment is crystal clear, as were our founders in the Federalist papers. Our 2nd amendment has nothing to do with hunting and everything to do with personal protection against any who would try to take our lawful rights and liberties from us. Every government who has taken the weapons from the people were soon after then conquered by that same government.

RECRUITING AMERICA FIRST PATRIOTS TO FILL ROLES OF LEADERSHIP

It's clear when we leave politics to others we are doomed to be ruled by our lessers. We all must get involved. We must fill every seat with God fearing-loving constitutionalists if we want to restore our republic. With our current leadership it is impossible. If we fix our election system, and America firsters run for office, they will win. We will take our Country back. Many people need a job, or have a job they don't like, why not take a job that really makes a difference? Many require no vax mandates, have incredible benefits like health, retirement and even remote

working with super flexible hours. We must fill every elected, appointed and volunteer position so this corruption ends and we ensure it never happens again. Get involved.

- We must fill all 400,000 Republican Precinct Committeeman spots

PC's can do all of this that voters can not:

<i>Precinct Committeeman YES on ALL</i>	Voter
Elect All Party Chairs (Directly; or Electors of Chairs)	No
Elect Electors of State Convention Delegates	No
Elect Electors of State Party's 3 RNC Members	No
Get Access to Party's Get Out The Vote Software	No
Elect Those Who Write Party Platform	No

- We must fill every elected position and appointed position with America first constitutionalist.
- We had no idea the power these seemingly minor positions until now
- If we control the positions we control the direction of our country
- Many need jobs, why not take jobs that really matter
- Many don't like their jobs, why not take a job that really matters
- Must fill all poll watcher, worker, manager, adjudication positions, every election!
- Must take back every County Central Committee board that is not A1
- All candidates and leaders MUST promote and support The Precinct Strategy
- All candidates must be vetted properly, and "R" means nothing these days

By candidates and leaders supporting the Precinct Strategy, they will build an army of supporters to help knock doors, make calls, show up for them, donate to them and support them like no one else. They are fools not to grow their County central committees and pack them with America First people who will truly be there for them.

It's clear as Plato told us, we either get involved in politics ourselves or we are doomed to be ruled by our lessers. He even went as far as to say evil men. We see what happens when good, moral people are not involved in the political process, look around. We all must get involved.

THE MEDIA IS CONTROLLING US, AND IT'S CONTROLLED BY BIG GOVERNMENT!

We have a broken media system. When the power of information is now channeled through a handful of corporations, who are tied to thousands of others, that is a problem. We the People no longer have access to counter arguments, or truths. We are censored by so called "big tech" companies who act as publishers deciding what we can say and can't. What we can see, hear and have access to. So called fact checkers are funded by these same giants, and use their opinions as we heard in the senate hearing to censor people, not facts! These so-called fact checkers are wrong time and time again with no consequence. The mainstream media is caught

time and time again stating opinions and disinformation as fact with no consequence. Millions may have and can still yet die from this corrupt system. This is what communists do, not what America is founded upon.

- Big Pharma and mainstream media are largely owned by two asset management firms: BlackRock and Vanguard.
- Drug companies are driving COVID-19 responses — all of which, so far, have endangered rather than optimized public health — and mainstream media have been willing accomplices in spreading their propaganda, a false official narrative that leads the public astray and fosters fear based on lies.
- Vanguard and BlackRock are the top two owners of Time Warner, Comcast, Disney and News Corp, four of the six media companies that control more than 90% of the U.S. media landscape.
- BlackRock and Vanguard form a secret monopoly that own just about everything else you can think of too. In all, they have ownership in 1,600 American firms, which in 2015 had combined revenues of \$9.1 trillion. When you add in the third-largest global owner, State Street, their combined ownership encompasses nearly 90% of all S&P 500 firms.
- Vanguard is the largest shareholder of BlackRock. Vanguard itself, on the other hand, has a unique structure that makes its ownership more difficult to discern, but many of the oldest, richest families in the world can be linked to Vanguard funds.

Our media, social media etc are working against we the people. Why do you think they call it TV Programming? It's because they program us through propaganda and mental warfare.

It's incredibly frightening and telling as to why this occurs.

It occurs because 95% of media-etc is controlled by 5 corporations and those 5 corporations are tied to countless other corporations all pushing whatever narrative-agenda they want at their consumers, citizens etc

More alarming yet, is the government telling them what to do and say!

This is not legal or ethical but no one seems to care, until they wake up.

What's more is that the government, corporate, media, healthcare giants etc etc all belong to groups similar to the CFR.

We all must wake up to the monopoly of information-media that is controlled by a handful of people that have the ability to cripple the masses with disinformation, scare tactics and mental programming.

It must end.

It's easy, if these giants are found pushing lies, propaganda etc they we must be able to sue them into oblivion.

If they are caught conspiring with government entities they must be prosecuted.

There must be a law on the books that prevents this propaganda of programing that is easily enforced and penalties quickly arrive.

We must have our first amendment protected, we must be able to state "our" truths-beliefs-opinions.

These so-called fact checkers are paid to silence the truth, they must be held accountable.

The death, evil that has ocured because of this system must stop immediately and the people who are a part of it must face justice from the death penalty down.

Millions die because of this corruption!

Enough!
